Southeast Iowa Regional MEDICAL CENTER

KID CARE

Kid Care is an employee benefit that helps parents avoid missing work while knowing their children are comfortable and safe in the Pediatrics Unit on the West Burlington campus.

Your child's care

One-on-one care is not possible, but staff provide periodic observation. Therefore, Kid Care is best for children who are at least preschool age.

Staff perform only tasks parents authorize. If requested, Pediatrics Unit staff can give medications you provide. You also must provide:

- Pull-Ups, if necessary
- Extra set of clothes
- Special food and drink related to dietary restrictions

We encourage parents to visit their children during breaks. Telephones, televisions and DVD are in every room. We can arrange for meals, which are included in the cost.

Availability

Kid Care is available 24 hours a day. Space is based on unit census, room availability and staffing. Please call at least one hour before you need care to ensure availability. To protect others, children with contagious diseases including chicken pox, pink eye and RSV aren't accepted.

Cost

Kid Care costs $4 per hour. Payroll deduction is the easiest way to pay.

Contact

For more information or to check availability, call 319-768-2800 or 319-768-2803.
